

## ERRATUM

### Short Term Complications of Titanium Elastic Nail in the Treatment of Diaphyseal Fracture of the Femur in Children, (2013; 7: Pp. 12-17) by Ranadeb Bandyopadhyay and Arindam Mukherjee.

Due to an oversight of the manuscript, some minor errors were published in journal "The Open Orthopaedics Journal" 2013; 7: pp. 12-17.

Dr. Saikat Sarkar (BS Medical College) was also contributed during the study, therefore, the title needed to be revised along with inclusion of his name as he was also a part of the project during that time period.

1. Title: TITANIUM ELASTIC NAIL - COMPLICATIONS IN THE TREATMENT OF PAEDIATRIC DIAPHYSEAL FRACTURE OF FEMUR.
2. AUTHORS - DR SAIKAT SARKAR, DR RANADEB BANDYOPADHYAY AND DR ARINDAM MUKHERJEE.
3. FIGURES 7 AND 9 are replaced with better photographs that were later received at follow up. These photos were not available during submission as the patients failed to turn up at the right time for check up.
